SUBJECT INDEX

AAP: *see* American Academy of Pediatrics
Abbreviated Injury Scale, pedestrian injuries assessed by, 284
Abscess
  perinephric, anaerobic bacteria role, 261
  renal, anaerobic bacteria role, 261
  spinal epidural, leukemia patient, 835
Accident: *see* Injury
Acetaminophen, effect, neonatal circumcision, 641
Aciduria, organic, acrodermatitis-like syndrome in (letter), 537
Acquired immunodeficiency syndrome
  future priorities, 936
  parents with, emotional impact on child, 421
  risk, low-income urban African-American early adolescents, 966
  STOP-AIDS campaign, effect on adolescent sexual behavior, Switzerland, 580
Acrodermatitis, lesions similar to, in organic aciduria (letter), 537
Adolescents
  drug trafficking among
    associated behaviors, African American youths, 1039
    male gender identity and, urban African-Americans, 1050
    perspectives of African-American youth living in public housing, 1055
    recent and intended, African-American youth, 1044
    role of legal system, African-American youth, 1078
  high risk behaviors, low-income African-American early adolescent boys, 1065
  risky health behaviors, comparison, sexually active, sexually abused, and abstaining subjects, 570
  sexual behavior
    effect of condom-promoting strategy, Switzerland, 580
    low-income urban African-Americans, 966
  sexually transmitted disease, comparison of diagnostic methods, 476
  specific age delineation for (commentary), 495
  substance abuse
    cigarette smoking prevalence among, 561
    effect of parental monitoring and peer influence, 1060
  unwanted homosexuality, objection to AAP statement (letters), 696
  with adverse coronary risk factors, school-based questionnaire for, 444
Adoption, confidentiality issues, pediatrician role in (committee statement), 339
Age, venipuncture pain response related to, 797
AIDS: *see* Acquired immunodeficiency syndrome
Albuterol, efficacy, bronchiolitis management, infants, 907
Alcoholism, cigarette smoking rates and, adolescents, 561
American Academy of Pediatrics
  Committee statements
    Committee on Bioethics: Guidelines on forgoing life-sustaining medical treatment, 532
    Committee on Child Health Financing: Medicaid policy statement, 135
    Committee on Children with Disabilities: Screening infants and young children for developmental disabilities, 863
    Committee on Drugs: Graduate medical education and pediatric workforce issues principles, 1018
    Committee on Drugs: The transfer of drugs and other chemicals into human milk, 137
    Committee on Early Childhood, Adoption, and Dependent Care: Health care of children in foster care, 335
    Committee on Early Childhood, Adoption, and Dependent Care: Issues of confidentiality in adoption: The role of the pediatrician, 339
    Committee on Early Childhood, Adoption, and Dependent Care: The application of health and safety guidelines to out-of-home child care programs, 1016
    Committee on Genetics: Health supervision for children with Down syndrome, 855
    Committee on Genetics: Prenatal genetic diagnosis for pediatricians, 1010
    Committee on Hospital Care: Staffing patterns for patient care and support personnel in a general pediatric unit, 850
    Committee on Infectious Diseases: Recommended timing of routine measles immunization for children who have recently received immune globulin preparations, 682
    Committee on Infectious Diseases: Screening for tuberculosis in infants and children, 131
    Committee on Injury and Poison Prevention: School bus transportation of children with special needs, 129
    Committee on Nutrition: Reimbursement for medical foods for inborn errors of metabolism, 860
    Committee on Pediatric Emergency Medicine: Death of a child in the emergency department, 861
    Committee on Sports Medicine and Fitness: Assessing physical activity and fitness in the office setting, 686
    Committee on Sports Medicine and Fitness: Risk of injury from baseball and softball in children 5 to 14 years of age, 690
    Committee on Substance Abuse: Tobacco-free environment: An imperative for the health of children and adolescents, 866
  1994 Red Book, summary of major changes in, 1006
American Board of Pediatrics, candidates certified, 541
Amino acids, inborn errors of metabolism, reimbursement for special medical foods (committee statment), 860
Aminophylline, evaluation, hospitalized asthmatic children, 205
Analgesia
  epidural, role, severe vaso-occlusive sickle cell crisis, 310
  hypoxemia reduced by, during routine procedures, neonates, 379
  patient-controlled, severe vaso-occlusive sickle cell crisis, 310
Anemia
  of prematurity, recombinant human erythropoietin in treatment of, 918
  sickle cell
    neonatal screening for, comparison of liquid and dried blood samples, 427
    vaso-occlusive crisis, epidural analgesia in management of, 310
Anesthesia
  hypotension and, preterm infants (letter), 870
  topical cream, compared with music distraction for reduction of needle-associated pain, 797
Anomaly, craniofacial, associated with obstructive sleep apnea syndrome, 784
Anorexia nervosa, behavior therapies compared, 989
Anthracycline, cardiotoxicity, monitoring for, 433
Antibiotics: *see* Drugs
Antibody, antineuronal, neuropsychiatric disorders mediated by (commentary), 323
Apolipoprotein, screening, adolescents with history of familial heart disease, 444
Apolipoprotein E, polymorphism, metabolism of apolipoprotein B and A-I influenced by, 296
Arthritis, poststreptococcal reactive, case report and literature review, 837
Aspartame, effect on behavior and cognition, attention deficit disorder, 70, 127 (commentary)

Aspergillus, osteomyelitis, medical therapy of, chronic granulomatous disease, 830
Asphyxia, brain damage related to, biochemical markers for early estimation of, 234
Asthma
acute exacerbation
evaluation of aminophylline therapy, 205
office management of, 119
treatment in emergency department (letters), 695
Ataxia, cocaine-exposed children, 557
Attention deficit disorder, aspartame effects on behavior and cognition in children with, 70

Bacteria, anaerobic, role in perinephric and renal abscesses, 261
Bacteroides fragilis, role, perinephric and renal abscesses, 261
Bedside testing, respiratory syncytial virus, 903
Behavior
antineuronal antibody role (commentary), 323
aspartame impact, attention deficit disorder (commentary), 127
effect of geographic mobility on, school-age children, 303

mortality risk, estimation of, 939
nonhemolytic hyperbilirubinemia, unbound bilirubin concentration and, 50
outcome, after intrapartum prophylaxis for group B Streptococcus, 631
resuscitation, laryngeal mask airway for (letter), 874
suspected sepsis, role of C-reactive protein levels (letters), 693
thermoregulation during sleep, effect of cool and warm environments, 789
Neonatologist, United States excess (letter), 351
Nerve, nonadrenergic, noncholinergic, role, Hirschsprung's disease, 647
Nervous system, parasympathetic, dysfunction in Prader-Willi patients, 76
Neural tube defect, folate supplementation and (letters), 694
Neurologic impairment, cocaine-exposed children, 557
Neuron-specific enolase, as early biochemical marker, CNS damage, asphyxiated full-term infants, 234
Neuropathy, hereditary sensory, manifestation as possible child abuse, 842
Neuropsychiatric disorder, antineuronal antibody-mediated, speculations on (commentary), 323
Neurotoxicity, bilirubin-based
preferred management (letters), 155
role of glial cells (letters), 155
Neurotransmitter, aspartame consumption effect, attention deficit disorder, 70
Neutrophil, depressed chemotaxis, children with blunt trauma, 807
Nitric oxide synthase, deficiency, aganglionic colon of Hirschsprung's disease patients, 647
Nitrofurantoin, prophylaxis, children receiving intermittent urinary catheterization, 752
Nucleoside analogues, combination therapy with, HIV-infected patients, 316
Nurse
estimation of neonatal mortality risk, neonatal ICU, 939
home visitation by
effect on parental caregiving and child health, 89
effect on prenatal maternal smoking, 228
Nutrition
impact on behavior and cognition, attention deficit disorder (commentary), 127
management of acute diarrhea, nonhuman milk role, 17

Obesity, associated with obstructive sleep apnea, postoperative respiratory compromise in children with, 784
Obstructive sleep apnea, postoperative respiratory compromise in children with, 784
Obtundation, cocaine-exposed children, 557
Omphalocele, association with Down syndrome, 514
Opioids, hypoxemia reduced by, during routine procedures, neonates, 379

Osteomyelitis, acute hematogenous, clinical value of C-reactive protein, 59
Osteopetrosis, autosomal recessive, variability of findings, 247
Otitis media
care of child with tympanostomy tubes, visual guide for, 924
protective effects of breast-feeding against (letters), 537
with effusion, cost effectiveness of management options, 353
Oxime, carbamate poisoning treated with, 652
Oximetry, noninvasive, comparison of transcutaneous and pulse oximeters, 737
Oxygen
consumption, during sleep, effect of cool and warm environments, neonate, 789
toxicity, carbonyl assay role, neonatal lung, 764
Oxygenation
extracorporeal membrane
developmental outcome in survivors of, prospective, controlled study, 404
for refractory septic shock, 726
SPECT abnormalities after, 945
noninvasive monitoring, transcutaneous versus pulse monitors, 737
Oxyhemoglobin, dissociation curve, pediatric house staff's knowledge of, 810

Pain
acetaminophen analgesia for, neonatal circumcision, 641
hypoxemia associated with, during routine treatment, neonate, 379
management technique, during immunization, 384
needle-puncture associated, local anesthetic cream versus music distraction in reduction of, 797
Pancreatitis, hereditary, West Virginia children, 528
Parent
caregiving, effect of prenatal and infancy nurse home visitation, 89
compliance, after emergency department visit, 513
counseling, reduction of child blood lead levels, 188
diagnostic testing, potential clinical outcome and value of, young febrile child, 697
HIV-infected, emotional impact on child, 421
monitoring of adolescent substance abuse by, 1060
required reading levels for patient education material, 460
response to vaccine information pamphlets, 369
Patent ductus arteriosus
Doppler-derived pulmonary artery pressure and, severe RDS, neonate, 769
video-assisted thoracoscopic surgery for (commentary), 823
Patient education, reading levels for, reading ability of parents compared with, 460
Pediatric clerkship, performance in diverse clinical settings, 608
Pediatrician: *see also* Physician
assessment of lead poisoning knowledge, 178
assessment of physical fitness in office setting (committee report), 686
confidentiality issues in adoption and (committee statement), 339
diagnostic testing, potential clinical outcome and value of, young febrile child, 697
interview style, maternal disclosures related to, 289
office management of acute asthma, practice parameter, 119
prenatal genetic diagnosis for (committee statement), 1010
primary care, increasing demand for (letter), 343
reaction to universal hepatitis immunization, 747
role, interconception care (commentary), 327
Pediatrics
medical student education guidelines, community-based pediatric offices, 956
practice-based research, household exposure to guns, 469
workforce issues, graduate medical education and (committee statement), 1018
Peer pressure, adolescent substance abuse and, parental monitoring effect, 1060
Peroxidase, bilirubin/albumin ratios determined by, jaundiced newborns, 488
Pertactin, IgG antibody to, acellular versus whole-cell pertussis vaccine, 656
Pertussis vaccine: *see* Vaccine
Pertussis toxoid, IgG antibody to, acellular versus whole-cell pertussis vaccine, 656
Pharyngitis, streptococcal, duration of positive throat cultures (letters), 539
Phenylalanine, aspartame effect on, attention deficit disorder, 70
Photoparoxysmal response, video game-related seizures, pathophysiology, treatment, and outcome, 551
Physician
estimation of neonatal mortality risk, neonatal ICU, 939
humanization of (letter), 869
Phytophotodermatitis, various manifestations, after contact with lemons/limes, 828
Pituitary gland, anomaly, MRI study in pituitary dwarfs, 409
Pneumonia, risk factors, Brazilian metropolitan area, 977
Prader-Willi syndrome, autonomic dysfunction in patients with, 76
Precocious puberty, in girls with myelodysplasia, 521
Pregnancy
folate supplements during (letters), 694
marijuana use during, neonatal outcome, Jamaica, 254
pediatrician role in outcome of (commentary), 327
smoking during, intellectual impairment related to, 221
toluene abuse during
developmental follow-up, 216
fetal effects, 211
Prepubertal child, macroorchidism in young boys with fragile X syndrome, 992
Preschool child
developmental screening, START procedure for, 82
immunization, by pediatric emergency department, 99
sex differences in disability/handicaps, children born at short gestation, 576
Prostaglandin, prolonged infusion, cortical hyperostosis secondary to, 417
Protein, oxidation, neonatal lung, 764
Pulmonary artery, systolic pressure, Doppler measurement, acute RDS, neonate, 769
Pulse oximetry, pediatric house staff's knowledge of, 810

Questionnaire
lead exposure, assessment of, 192
lead exposure risk predicted by, 183
lead poisoning, pediatrician responses, 178

RDS: see Respiratory distress syndrome
Reading levels, parental, comparison with required reading levels for patient education material, 460
Rehydration therapy, oral, barriers to use of, 708
Respiratory disorder, adult RDS-like, bovine surfactant in neonates with (letter), 538
Respiratory distress syndrome
prenatal dexamethasone with rescue therapy of human surfactant, multicenter study, preterm infants, 730
systolic pulmonary artery pressure and, Doppler measurement, neonate, 769
Respiratory syncytial virus
rapid diagnostic test for, 903
ribavirin therapy, AAP recommendations (letters), 872
ribavirin treatment, Red Book Committee recommendations (commentary), 672
Respiratory tract infection, acute
albuterol efficacy in management of, 907
risk factors for, 977
Ribavirin
Red Book Committee recommendations (commentary), 672
Red Book recommendations challenged (letters), 872
Ribs, exostoses of, pediatric hemothorax caused by, 523
Roseola infantum, clinical features, 104

School age children
early grade retention, predictors of, United States, 481
bus transportation of disabled students (committee statement), 129
emotional/behavioral adjustment, effect of geographic mobility on, 303
sexuality education, AAP endorsement of SIECUS guidelines (letters), 871
School failure, predictors of, US children, 481
Sciatic nerve, immunization-associated injury (letter), 351

Score for Neonatal Acute Physiology, mortality risk assessed by, neonatal ICU, 939
Screening
blood lead levels
air lead levels and, 195
recommendations (commentary), 201
developmental
prevention of developmental delays by, 586, 863 (committee statement)
START procedure, preschool children, 82
hearing impairment (commentary), 330
lead exposure risk, questionnaire for, 183
lead poisoning risk
suburban children, 164
urban population, 159
neonatal hemoglobinopathy, comparison of liquid and dried blood samples, 427
Seasonality, blood lead levels, long-term trends, 195
Seat belts, motor vehicle injury rates and, 960
Seizures
cocaine-exposed children, 557
interferon-related, postinfantile giant cell hepatitis, 511
video game-related, case reports and literature review, 551
Sepsis
C-reactive protein levels and, neonate (letters), 693
neonatal outcome, after intrapartum prophylaxis for group B Streptococcus, 631
Sexual abuse
impact on psychological well-being, prospective study, 452
psychosocial correlates associated with, adolescent subjects, 570
Sexuality education, AAP endorsement of SIECUS guidelines (letter), 871
Shock, septic, extracorporeal membrane oxygenation in children with, 726
Sickle cell anemia: *see* Anemia
SIDS: see Sudden death infant syndrome
Skin lesion, lemon/lime-associated phytophotodermatitis, 828
Sleep, thermoregulation during, effect of warm and cool environments, neonate, 789
Sleep position, SIDS and, 814, 820 (commentary)
Smoking
during pregnancy
effect of prenatal home visitation services, 228
intellectual impairment resulting from, 221
prenatal home visitation effects, 228
elimination of (committee statement), 866
prevalence, substance-abusing adolescents, 561
Socioeconomic status
as risk factor for pneumonia, Brazilian metropolitan area, 977
family history unreliability and, cholesterol screening, inner-city children, 109
urban drug trafficking and, African-American males, 1050
Staphylococcus aureus, role, perinephric and renal abscesses, 261
Status epilepticus, refractory, interferon-associated, 511
Streptococcus, group B, selective intrapartum prophylaxis, 631
Streptococcus pneumoniae, penicillin- and cephalosporin-resistant (commentary), 500
Stress, oxidative, carbonyl assay role, neonatal lung, 764
Stress response, routine treatment procedures, opioid analgesia for, neonates, 379
Substance abuse
adolescent
cigarette smoking rates and, 561
parental monitoring and peer influences, 1060
associated with drug trafficking
African-American early adolescents, 1039
gender differences, African-American early adolescents, 1044
Sudden infant death syndrome
cardiorespiratory recordings from victims of, 44
fatal child abuse or (letter), 539
infant sleep position and, 814, 820 (commentary)
risk, infants with bronchopulmonary dysplasia, 774
Surfactant
bovine, neonates with adult RDS-like disorders (letter), 538
human, prenatal dexamethasone in conjunction with, preterm infant, 730
Sweating, neonatal, thermoregulation during sleep and, 789
Syncope, neurocardiogenic
role of tilt table testing in evaluation of, 660
tilt-table testing and oral metoprolol therapy for patients with, 278

Temperature, environmental, effect on sleep and body temperature, neonate, 789
Testing, diagnostic, parents' versus physicians' values for clinical outcomes, febrile child, 697
Thalassemia, neonatal screening for, comparison of liquid and dried blood samples, 427
The Red Book, summary of major changes, 1994 report, 1006
Thoracoscopy, video-assisted surgery, patent ductus arteriosus (commentary), 823
Throat culture, duration of positivity (letters), 539
Tilt-table testing
oral metoprolol therapy and, unexplained syncope, 278
role, evaluation of recurrent pediatric syncope, 660
Tinea capitis, kerion type, unnecessary hospitalization for, 986
Tin-mesoporphyrin, inhibition of bilirubin production by, preterm neonates, 1
Toluene, embryopathy
clinical delineation and developmental follow-up, 216
comparison with FAS, 211
Trimethoprim/sulfamethoxazole, life-threatening reaction to, HIV-infected patient, 519
Tuberculin skin test, recommendations (committee statement), 131
Tuberculosis, screening, infants and children (committee statement), 131
Tympanostomy tube, care of child with, 924

Urinalysis, enhanced technique, effect on private pediatrician (letters), 153

Vaccine
conjugated *Haemophilus influenzae* type b, decline of Hib disease resulting from (editorial), 680
diphtheria-tetanus-pertussis, serious reactions to (letter), 154
hepatitis B, universal immunization with, physicians' reactions, 747
immunogenicity, infants born to vaccine-immune mothers, 930
information pamphlets, parents' responses to, 369
measles, immunogenicity, infants of vaccine-immune mothers, 930
pertussis
acellular pertussis, comparison with whole-cell vaccine, 15- through 20-month-old infants, 656
acellular versus whole-cell, as booster doses, 37
comparison of three-component acellular vaccine with whole-cell vaccine, 656
Valproic acid, carnitine prophylaxis for children receiving, 893, 891 (editorial)
Ventilating tubes, cost effectiveness, persistent otitis media with effusion, 353
Ventilation, oxidative modification of proteins during, neonate, 764
Ventricular septal defect, congenital isolated, ausculatory and echocardiographic findings, 516
Video game, seizures related to, pathophysiology, treatment, and outcome, 551
Vigintiphobia, measurement of unbound bilirubin concentrations and, full-term newborns, 50
Virus, antiretroviral, zidovudine-didanosine combination therapy in HIV infection, 316
Vision, impairment, autosomal recessive osteopetrosis-related, 247
Visual analog scale, pain intervention for immunizations, 384
Vitamin K, fetal and neonatal deficiency, controversies concerning (letters), 156

Weapons, drug trafficking and drug use associated with, African-American early adolescent boys, 1065
Weight gain
comparison of behavior therapies for, anorexia nervosa inpatients, 989
deterioration, excessive juice consumption and, 438
White blood cell count, predictive value, acute hematogenous osteomyelitis, 59
Wolf-Hirschhorn syndrome, fluorescent in situ hybridization applied to, 826

Zidovudine, combined with didanosine, HIV infection treated with, 316
